PROFILE

I am a highly skilled software developer with extensive experience in coding and software documentation. My technical expertise includes proficiency in various programming languages such as Java, C++, and R as well as expertise in web development frameworks such as React. I am also adept at developing software documentation, including technical specifications, user manuals, and training materials. I have 2+ years of experience in a software Documentation and I am skilled in creating clear and concise documentation that enables users to easily understand and use software products. My ability to combine technical expertise with excellent communication skills has enabled me to work effectively with development teams, stakeholders, and end-users. I am passionate about software development and am committed to staying up to date with the latest technologies and trends in the field.

EDUCATION

FAST- BS Software Engineering – (CGPA: 2.33)	Sep 2020—Present
FG Degree College Hyderabad Cantt – Intermediate: 81.81%	Aug 2016—May 2018
Unique grammar High School – Matriculation: 75.05%	Aug 2018—May 2020

HONORS AND AWARDS

- **Digi skills (Freelancing)** in 2020
- **AI For Oceans** from AI Webinar 2021
- **Blind Coding** from FAST (FECS) in 2021

WORK EXPERIENCE

Fiverr

Software Architect:

July 2022 – Present

- I have extensive experience in creating software specifications, including functional and non-functional requirements, use cases, and system architecture diagrams.
- I am skilled in collaborating with stakeholders and development teams to ensure software products meet the needs of end-users and align with business objectives.

C++:

Sep 2020- Present

- I have several years of experience in C++ programming, including developing Console projects.
- My expertise in C++ extends to object-oriented design patterns, memory management, and algorithm optimization.

Java:

- I have several years of experience in Java programming, including developing desktop applications.
- I am proficient in using development tools such as Eclipse and IntelliJ IDEA, and I am committed to writing clean, well-organized code that is easy to maintain and scale.

Oracle:

- I have extensive experience working with Oracle databases, including designing, implementing, and maintaining database systems.
- I am skilled in using Oracle development tools such as SQL Developer and Oracle Forms, and I am committed to ensuring database systems are secure, reliable, and efficient.

Android Development:

- I have several years of experience in Android front-end development, including designing and implementing user interfaces using XML and Java.
- I am proficient in using development tools such as Android Studio and Visual Studio Code, and I am committed to creating user-friendly, responsive applications that meet the needs of end-users.

Web Development:

- I have extensive experience in front-end web development, including designing and implementing responsive, user-friendly interfaces using HTML, CSS, JavaScript and React.
- I am skilled in using development tools such as VS Code, Sublime Text, and WebStorm, and I am committed to creating high-quality, scalable web applications that meet the needs of end-users.

RESEARCH AND PROJECTS

Inventory Management System

- Proficient in developing inventory management systems using Oracle as the database management system and C# as the programming language (Front-End), with expertise in tracking inventory levels, orders, and shipments, as well as generating reports and alerts based on inventory data.

Multilingual Dictionary

- Proficient in developing Multilingual Dictionaries using Eclipse Java, with expertise in designing user-friendly interfaces, and implementing advanced features such as Suggestions and word usage examples.

Hotel Booking Application

- Proficient in developing front-end Hotel Booking application using Android Studio, with expertise in designing and implementing user interfaces using XML and Java.

Data Analysis

- Experienced in data analysis using R Studio, with proficiency in statistical modeling, data visualization to extract insights and identify trends from complex data sets, and presenting findings to stakeholders using clear, concise reports and visualizations.

Other Semester Projects: Snake and Ladder using C++, Cricbuzz Management system using OOP, Tic Tac Toe using JS, Bus Management system using C++ Data Structures, SRS (Examzy) and many more.

SKILLS

Software Architecture, UML Modeling, Front end Web Development, Android Development, Software Specifications, Data Analysis, ORACLE, HTML/CSS, JS, Haskell, C#, MySQL, C++, JAVA, MS Office Enterprise, Report Writing ,Letter Writing etc.

EXTRA COCURRICULAR ACTIVITIES:

- **PIPC** Conference Management (2021)
- **Event** Management Head (Welcome Party in FAST-NUCES in 2021)
- **DAIRA** Management (Persona and Theater in 2022)
- **ICIT** Stage Management (2022)
- **JOB FAIR** (FAST-NUCES) (2022)
